Award winning software for builders and contractors.

PAUL BETTS FOUNDER & DIRECTOR OF EASY PRICE PRO

As a builder, I used to spend hours working out costs for estimates and quotations. It was an essential task, but one that I found extremely time consuming and tedious, and it frequently resulted in long nights of thankless work.

My search for an estimating program that was easy to use and genuinely able to produce accurate quotations was totally unsuccessful – so I decided to create my own.

17 years on, we are now producing the UK's leading estimating software for small to medium sized building companies, and have now teamed up with ELLIOTTS, so you can create your estimates based on your own, up to the minute, account prices, as agreed with your ELLIOTTS branch.

Like all our programs, you will find this new estimating software is:

Fast – It will save you hours on your estimating time, enabling you to respond to your customers enquiries fast, producing a highly professionally presented estimate - without clogging up your in tray.

Easy to use – Easy Price Pro is designed for building and contracting professionals and needs little or no computer experience to use it. We keep a close eye on other construction related software at home and overseas and can honestly say no other software comes close to Easy Price Pro for ease of use.

Accurate – The new ELLIOTTS version of the software is designed by people who know your business, producing real life estimates based on your plant, labour rates, profit margins and your own ELLIOTTS account pricing. To keep your software up to date, ELLIOTTS will send you a pricing and product CD on a regular basis.

We believe our programs are so complete and easy to use, you may even look forward to pricing work in the future.

Join us, it'll change estimating as you know it!

What builders say about Easy Price Pro software

“ I can say without question that the professional presentation and quicker response time which this programme produces has helped me to win more business. ”

ATEC DESIGN & BUILD LTD

“ Easy Price Pro has definitely improved the way we work. The time we actually spend estimating has greatly reduced as the program makes this laborious task so much quicker and easier. We find we can now price more jobs and get a proper professional estimate back to the customer in a reasonable time. This in itself has significantly improved the amount of jobs we win. ”

L&P MULLEN

“ Since I have been using Easy Price Pro I have hugely reduced the amount of time I spend estimating and spend much more time actually getting the work done on-site. One thing I particularly like is the way the programme produces the actual quote, without me having to spend hours typing it out. ”

J.PATERSON & Co

“ We tested several other makes of estimating software, but none were as clear and easy to use as this one. ”

BIRMINGHAM

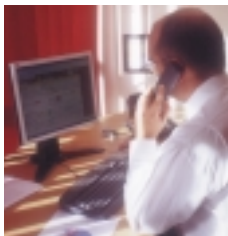

“ I do not know how to use computers very well, but I have found your program so quick and easy to use. It has helped me immensely and has saved me time and money in pricing quotes and in getting interim payments from my clients. Also, your backup service to your software is excellent, any queries I had you dealt with straight away. Once again thank you for your prompt service and excellent software. ”

D & D ALDOUS CONSTRUCTION COMPANY

EASY PRICE PRO IS WINNER OF THE PROFESSIONAL BUILDING PRODUCT OF THE YEAR AWARD.

THE SUPPORT DESK WILL GIVE YOU REAL ADVICE FROM PEOPLE WHO KNOW YOUR TRADE

OUR DESIGN TEAM IS CONSTANTLY DESIGNING NEW UPDATES FOR YOUR SOFTWARE

AWARD WINNING SOFTWARE

"Easy Price Pro is the easiest programme I have ever used and I don't just mean estimating programmes – I mean all computer programmes. It does the job in a fraction of the time and doesn't make those stupid errors that come late at night and end up costing a fortune. If you want to get your life back, then this is a good way of giving you some leisure time to do the things you would rather be doing."

ROGER BISBY, PROFESSIONAL BUILDING.

ALL THE SUPPORT YOU MAY NEED

You'd expect our support team to be expert in Easy Price Pro software and they are, but, just as important, they understand your trade too. So you'll get real advice as to how to get the best for your business. There's free telephone support in the first year and free email support thereafter.

SEE FOR YOURSELF BEFORE YOU BUY

We are the only estimating software company that offers a free personal demonstration at your office. So you can see exactly what you are getting, how easy it is to use and ask any questions.

CALL 0845 612 4747

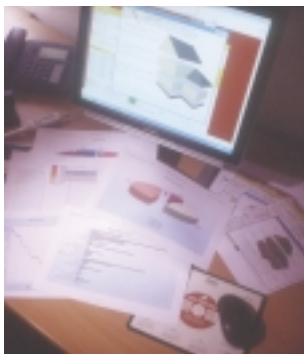

We'll arrange for one of our representatives to give you a full demonstration.

or visit

www.easypriepro.com

and see a working demonstration for yourself.

Why EASY PRICE PRO® is the UK's leading estimating software.

Elliotts

THE EASIEST ESTIMATING SOFTWARE YOU WILL EVER USE

EASY PRICE PRO® programs are simple to use, even if you have very little computer experience.

Our software works the way you work, taking you through the job and asking you to select the information required, such as the dimensions and materials to be used and then working out all the costs involved.

Throughout, there are pop-up help boxes and diagrams to guide you whenever you need them - **there's no need for a manual and no need for training.**

SOFTWARE THAT DOES SO MUCH THINKING FOR YOU

EASY PRICE PRO® doesn't just calculate the cost of the items selected, it goes on to calculate all the items associated with them. Add the windows in our building programs, for example, and the software automatically takes away all that is not required such as bricks and cavity wall insulation and then adds all the extras that are required such as sills, fixtures, glazing and finishing – right down to the last screw. You'll find the same approach in all our software which is why **EASY PRICE PRO® makes sure that nothing is left out of the quote.**

THE UK'S MOST ACCURATE ESTIMATING SOFTWARE

Working with ELLIOTTS, EASY PRICE PRO® software works out your estimates all based on your costs and your up to the minute account prices from your local ELLIOTTS branch. So you know your estimates are really accurate.

PROFESSIONALLY PRESENTED QUOTATIONS THAT WIN MORE BUSINESS

Our detailed client quotations are automatically produced saving you all the typing. **They are designed to impress your customers, by ensuring your estimates stand out as detailed and professional.**

KEEPS YOU IN CONTROL OF THE JOB AND PROFIT

EASY PRICE PRO® gives you a whole range of additional schedules and charts to help control the job and profit levels.

WE ARE NEVER STANDING STILL

We can't afford to. New working techniques, new products, new regulations – every day we are researching ways of adding to our programs and listening to our customers to find out what can be improved. **Updates are easily downloadable from our web site.**
